Charging station

Charging station for electric vehicles for public spaces and business

Wall-Box

Charging point for electric vehicles for business and private

Backoffice

Online software programme for control and payment

Chargepoint® charging solutions

An overall concept for smart energy supply of electric vehicles

	Charging station			Wall-Box		
x = standard o = optional	Cardreader (RFID)	Cardreader(RFID) + Backoffice	Plug & Charge	Cardreader (RFID)	Cardreader(RFID) + Backoffice	Flush-mounted
Chargepoint® charging station						
Freestanding	x	x	o	o	o	-
Wall mounted cabinet housing	-	-	x	x	x	-
Cabinet, flush mounted	-	-	-	-	-	x
Charger plug connector						
1x Europese connection Type 2 (3,7/11/22 kW)	x	x	x	x	x	x
2x Europese connection Type 2 (3,7/11/22 kW)	o	o	o	o	o	-
1x cable	-	-	o	o	o	-
Access						
Cardreader RFID	x	x	-	x	x	o
Automatic release	-	-	x	-	-	x
Access group of RFID users (programmable)	o	x	-	o	x	o
Access other RFID users (interoperable)	-	x	-	-	x	-
Safety						
Personal Security (earth leakage switch)	x	x	o	o	o	o
Communication						
Backoffice system ¹⁾ (via OCPP)	o	x	-	o	x	o
Communication via GSM/GPRS/GPS	o	x	-	o	x	o
Payment module with kWh meter	o	x	-	o	x	o
Mode 3 European charging standard	x	x	x	x	x	x
Connection for power company	o	o	-	-	-	-
<i>1) online remote control / remote service / easy upgrading / exploitation charging station / charging data for administration / automatic invoicing / max. availability charging station</i>						
Exterial appearance						
RAL 9006	x	x	x	x	x	x
Different colour	o	o	o	o	o	o
RVS 304 design	o	o	o	o	o	o
Full colour printing with customisable design	o	o	o	o	o	o
